

Cleaner Spray

degreases and cleans all metals, glass, ceramics and most plastics

Cleaner Spray cleans, degreases and evaporates without leaving residues. Its special valve also makes it possible to work above your head. Cleaner Spray can be used on all metals, glass, and ceramics, and on most plastics, and thermoplastics such as PVC, PMMA (acrylic glass), polystyrene etc.

Cleaner Spray can be used for cleaning and degreasing before priming and painting, for cleaning machine parts or before other products are applied on surfaces where a greasy underground would impair their effect.

Technical Data

Odour	orange
Features	evaporates without residues
Storage stability	24 months
Colour	colourless

Processing

Spray in sufficient quantity onto the part to be treated and allow to react. If necessary, wipe off with a clean cloth. Repeat process as required. Avoid contact with plastic and varnished surfaces.

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

Safety and health

When using products, the physical, safety technical, toxicological and ecological data and regulations in our EC safety data sheets must be observed.
